The first crossing of Greenland Longmans, Green, and Co.
Everything shows that in the very interior the only melting
that goes on is the moistening of the upper surface just at
the warmest period of the year, while this layer is solidified
again immediately. Equipment The sledges were of strong ash,
lashed together without nails to keep the elasticity.

All fourfolded maps present. Nansen was appointed as the
president of the Norwegian Union of Defence, but had few
official duties, and continued with his professional work as
far as circumstances permitted. Much of the equipment,
including sleeping bags, clothing and cooking stoves, also
needed to be designed from scratch. New snow and frost spoilt
the glide of the steel-covered sledge runners.

View all 15 comments. He would start from the uninhabited east coast, and strike
sighted the Greenland coast a week later, but thick pack ice
hindered progress. A very good set .
