PopularFeatures.PrivacyPolicy. Bodies were prepared in increasingly extravagant ways for burial, with the result that all marks of suffering, anguish, disease and frailty were removed, the deceased appearing better after death than during life. The average American's first intimate encounter with death might not occur until she is well beyond middle age. It's not unusual for children to care for their parents from a distance, calling doctors or arranging transportation and nursing care, further removing us from face-to-face interaction with death and dying.
